Projects

CraftHeaven

GitHub: <https://github.com/LoveSaini100/CraftHeaven>

- Designed and built an interactive e-commerce website with product listings, cart

functionality, and user login system using HTML, CSS, Bootstrap, and JavaScript.

- Ensured cross-device compatibility with responsive UI.

E-commerce Website

GitHub: <https://github.com/LoveSaini100/E-commerce>

- Built a fully responsive static e-commerce site using HTML, CSS, and Bootstrap.
- Focused on layout, styling, and mobile-first design principles.

Photo Gallery App

GitHub: <https://github.com/LoveSaini100/photo-gallery-app>

- Developed a responsive Photo Gallery web app using React and Tailwind CSS, optimized for both desktop and mobile users..
- Integrated infinite scroll functionality to dynamically load photos from an API as the user scrolls, improving performance and UX.
- Implemented lazy loading and efficient state management using React hooks to enhance app responsiveness.

Portfolio Website

GitHub: https://github.com/LoveSaini100/Love_portfolio

Live: https://LoveSaini100.github.io/Love_portfolio

- Developed a personal portfolio website using React.js and Vite, showcasing projects, skills, education, achievements, and contact details in a clean and professional layout.
- Built a fully responsive design with dark/light mode support, optimized for both desktop and mobile devices to ensure seamless user experience.
- Deployed the website using GitHub Pages, implementing automated build and deployment workflows using gh-pages .
